## Skills

- Languages/Frameworks: Laravel, PHP, Livewire, JavaScript, HTML, CSS
- Frontend: React (Basics), Bootstrap
- Tools: Git, Postman, MySQL
- Languages: English, Hindi

## Profile

Skilled Backend Developer with 1.5 years of experience in developing scalable web applications using Laravel. Proficient in REST API development, admin panel creation, and integrating third-party services. Adept at collaborating with cross-functional teams, resolving complex issues, and delivering efficient, secure, and maintainable code. Experienced with Livewire, Fortify, and Agile methodologies, ensuring seamless performance across web and mobile applications.

## Professional Experience

### Backend Developer - Quantum IT Innovation (Remote)

*November 2024 – Present*

---

- Contributed to multiple Laravel-based projects with a focus on backend development, API architecture, and admin functionalities.
- Collaborated with cross-functional teams to design and implement scalable and secure backend systems.
- Meinhaus – <https://meinhaus.ca>
  1. Developed REST APIs for customer, professional, and admin panels using Laravel & Livewire.
  2. Implemented dynamic modules including bulk filtering, advanced search, and chatbot integration.
  3. Designed and managed the backend API structure consumed by the mobile app.
- Procurement System – Seller Portal <https://procurement.quantumhostings.com/seller/login>
  4. Worked on the vendor-side functionality.
  5. Integrated Laravel Fortify for secure authentication and multi-step registration.
  6. Developed modules for enquiry management, quotation generation, order tracking, and password reset.
- HDFC Payment Integration
  7. Integrated HDFC payment gateway using API-based flow.

- 8. Handled token generation, payment callback responses, and secure transaction logging.
- SEO System (Internal Project)
- 9. Built email campaign modules with bulk sending, queue management, and retry handling for failed emails.

## Junior Full-Stack Developer (React & Laravel) - InfoSparkles IT Solution, Indore

*May 2024 – October 2024*

---

- Previously worked at InfoSparkles IT Solution, where I contributed to numerous Laravel and React projects, including mytket, SuppliArabia, RentalHive, logistics, and Desert Gate. My responsibilities involved developing and maintaining web applications, ensuring smooth performance, and delivering responsive, user-friendly interfaces. I collaborated with cross-functional teams to implement new features, resolve technical issues, and continuously enhance both frontend and backend functionalities.
- Below are some of the projects I have worked on, along with their links:
  - 1. mytket: <https://mytket.infosparkles.com/>
  - 2. rentalhive: <https://rentalhive.infosparkles.com/>
  - 3. supliarabia: <https://supliarabia.infosparkles.com/admin/>
  - 4. logistic: <https://logistic.infosparkles.com/admin/>
  - 5. qctlcapp: <https://qctlcapp.infosparkles.com/>
- Contributions include:
  - Creating new modules with filters for enhanced functionality.
  - Bug fixing and implementing client-requested features.
  - Enhancing user experience with additional booking features.

## Junior Web Developer – Eway IT Solution, Ujjain

*Jul 2023 – May 2024*

---

- Actively contributed to projects such as Ghatnayak App, Culture App, Lottosocial App, Khana App, and Employees Attendance App. Played a key role in developing and maintaining web applications using Laravel and React, resolving technical issues, and implementing new features based on client feedback to improve user experience.
- Lottosocial App: <https://lottosocial.com/>
